<https://tianwes.github.io/Tiffany-Weaver-Portfolio/>

Full-stack web developer proficient in front-end. Experience in customer satisfaction, communication and creative problem-solving working as Administrative Assistant. Persevered through University of Florida's coding bootcamp and earned a certificate in web development. Further developed skills in project-management, brainstorming, and team-work. Finds design and functionality important knowing user experience/interface can make or break customer relations. Fulfillment found in making apps more enjoyable and user friendly while building and returning a client's vision.

Technical Skills
